

# AMG FUNDS REQUIRED MINIMUM DISTRIBUTION ELECTION FORM

If you currently receive Required Minimum Distribution (RMD) payments and you do not want to make any changes to the amount or payment schedule, or if you have already satisfied your annual RMD, you **DO NOT** need to complete or return this form. **Note:** Failure to withdraw your RMD amount by the applicable deadline could result in a 25% penalty tax. The penalty tax would be assessed on the difference between the amount that you were required to take and the amount that was actually distributed, if any. Additionally, the 25% penalty tax may be reduced to 10% if the past due amount is distributed within a 2-year correction window beginning on the date the distribution was originally due.

### **PAYMENT METHOD**

Based on your selected distribution method, a Medallion Signature Guarantee Stamp may be required. Please refer to your prospectus or call us at the number listed on this form for specific requirements. If a payment method is not selected, your RMD will be issued as a check payable to you and mailed to your address of record. Your payout method will remain in effect until we receive

notice from you requesting a change.		
Mail check to my address of record currently on file.

#### Substitute W-4R 2023 - Withholding Certificate for Nonperiodic Payments - For use with IRAs ONLY

- 1) For nonperiodic payments, the default withholding rate is 10%. You can choose to have a different rate by entering a rate between 0% and 100% on line 2. Generally, you can't choose less than 10% for payments to be delivered outside the United States and its territories. See Instructions below for more information.
- 2) Complete this line if you would like a rate of withholding that is different from the default withholding rate. See Instructions and the Marginal Rate Tables below for additional information. Enter the rate as a whole number (no decimals) \_\_\_\_\_\_%

### 2023 Marginal Rate Tables

You may use these tables to help you select the appropriate withholding rate for this payment or distribution. Add your income from all sources and use the column that matches your filing status to find the corresponding rate of withholding. See below for more information on how to use this table.

Single or Married filing Separately		Married filing jointly or Q	ualifying surviving spouse	Head of household					
Total income Tax rate for every over— dollar more		Total income Tax rate for every over— dollar more		Total income Tax rate for every dollar more					
\$0	0%	\$0	0%	\$0	0%				
13,850	10%	27,700	10%	20,800	10%				
24,850	12%	49,700	12%	36,500	12%				
58,575	22%	117,150	22%	80,650	22%				
109,225	24%	218,450	24%	116,150	24%				
195,950	32%	391,900	32%	202,900	32%				
245,100	35%	490,200	35%	252,050	35%				
591,975*	37%	721,450	37%	598,900	37%				
*If married filing separately, use \$360,725 instead for this 37% rate.									

General Instructions: Section references are to the Internal Revenue Code.

**Future developments.** For the latest information about any future developments related to Form W-4R, such as legislation enacted after it was published, go to www.irs.gov/FormW4R.

**Purpose of form.** Complete Form W-4R to have payers withhold the correct amount of federal income tax from your nonperiodic payment from an employer retirement plan, annuity (including a commercial annuity), or individual retirement arrangement (IRA). See below for the rules and options that are available for each type of payment.

Caution: If you have too little tax withheld, you will generally owe tax when you file your tax return and may owe a penalty unless you make timely payments of estimated tax. If too much tax is withheld, you will generally be due a refund when you file your tax return. Your withholding choice (or an election not to have withholding on a nonperiodic payment) will generally apply to any future payment from the same plan or IRA. Submit a new Form W-4R if you want to change your election.

Nonperiodic payments—10% withholding. Your payer must withhold at a default 10% rate from the taxable amount of nonperiodic payments unless you enter a different rate on line 2. Distributions from an IRA that are payable on demand are treated as nonperiodic payments. Note that the default rate of withholding may not be appropriate for your tax situation. You may choose to have no federal income tax withheld by entering "-0-" on line 2. See the specific instructions below for more information. Generally, you are not permitted to elect to have federal income tax withheld at a rate of less than 10% (including "-0-") on any payments to be delivered outside the United States and its territories.

**Note**: If you don't give Form W-4R to your payer, you don't provide an SSN, or the IRS notifies the payer that you gave an incorrect SSN, then the payer must withhold 10% of the payment for federal income tax and can't honor requests to have a lower (or no) amount withheld. Generally, for payments that began before 2023, your current withholding election (or your default rate) remains in effect unless you submit a Form W-4R.

Payments to nonresident aliens and foreign estates. Do not use Form W-4R. See Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities, and Pub. 519, U.S. Tax Guide for Aliens, for more information.

Tax relief for victims of terrorist attacks. If your disability payments for injuries incurred as a direct result of a terrorist attack are not taxable, enter "-0-" on line 2. See Pub. 3920, Tax Relief for Victims of Terrorist Attacks, for more details.

#### Specific Instructions

**Line 2 - More withholding.** If you want more than the default rate withheld from your payment, you may enter a higher rate on line 2.

Less withholding (nonperiodic payments only). If permitted, you may enter a lower rate on line 2 (including "-0-") if you want less than the 10% default rate withheld from your payment. If you have already paid, or plan to pay, your tax on this payment through other withholding or estimated tax payments, you may want to enter "-0-".

Suggestion for determining withholding. Consider using the Marginal Rate Tables above to help you select the appropriate withholding rate for this payment or distribution. The tables are most accurate if the appropriate amount of tax on all other sources of income, deductions, and credits has been paid through other withholding or estimated tax payments. If the appropriate amount of tax on those sources of income has not been paid through other withholding or estimated tax payments, you can pay that tax through withholding on this payment by entering a rate that is greater than the rate in the Marginal Rate Tables.

The marginal tax rate is the rate of tax on each additional dollar of income you receive above a particular amount of income. You can use the table for your filing status as a guide to find a rate of withholding for amounts above the total income level in the table.

To determine the appropriate rate of withholding from the table, do the following. Step 1: Find the rate that corresponds with your total income not including the payment. Step 2: Add your total income and the taxable amount of the payment and find the corresponding rate.

If these two rates are the same, enter that rate on line 2. (See Example 1 below.)

If the two rates differ, multiply (a) the amount in the lower rate bracket by the rate for that bracket, and (b) the amount in the higher rate bracket by the rate for that bracket. Add these two numbers; this is the expected tax for this payment. To get the rate to have withheld, divide this amount by the taxable amount of the payment. Round up to the next whole number and enter that rate on line 2. (See Example 2 below.)

If you prefer a simpler approach (but one that may lead to overwithholding), find the rate that corresponds to your total income including the payment and enter that rate on line 2.

**Examples.** Assume the following facts for Examples 1 and 2. Your filing status is single. You expect the taxable amount of your payment to be \$20,000. Appropriate amounts have been withheld for all other sources of income and any deductions or credits.

**Example 1.** You expect your total income to be \$60,000 without the payment. Step 1: Because your total income without the payment, \$60,000, is greater than \$58,575 but less than \$109,225, the corresponding rate is 22%. Step 2: Because your total income with the payment, \$80,000, is greater than \$58,575 but less than \$109,225, the corresponding rate is 22%. Because these two rates are the same, enter "22" on line 2.

**Example 2.** You expect your total income to be \$42,500 without the payment. Step 1: Because your total income without the payment, \$42,500, is greater than is greater than \$24,850 but less than \$58,575, the corresponding rate is 12%. Step 2: Because your total income with the payment, \$62,500, is greater than \$58,575 but less than \$109,225, the corresponding rate is 22%. The two rates differ. \$16,075 of the \$20,000 payment is in the lower bracket (\$58,575 less your total income of \$42,500 without the payment), and \$3,925 is in the higher bracket (\$20,000 less the \$16,075 that is in the lower bracket). Multiply \$16,075 by 12% to get \$1,929. Multiply \$3,925 by 22% to get \$863.50. The sum of these two amounts is \$2,792.50. This is the estimated tax on your payment. This amount corresponds to 14% of the \$20,000 payment (\$2,792.50 divided by \$20,000). Enter "14" on line 2.
